The screenshot shows the MinerGate v.6.0 interface. It features a menu bar (Menu, View, Logs, Options, Help) and a navigation bar with icons for Wallet, Smart Miner, Miner, Benchmark, and Achievements. The main area is a table with columns for Currency Balance, Cpu Mining, Cpu Cores, Gpu Mining, Intensity, Shares Good/Bad/Last, Shares Difficulty, Unconfirmed Balance, Reward Method, and Merged Mining. The table lists several cryptocurrencies: BCN, DSH, ETH, FCN, XDN, and XMR. The ETH row is highlighted in green, indicating it is currently mining. The ETH row shows a mining rate of 457.52 kH/s and 7.93 MH/s, with a difficulty of 100,000 and a reward method of PPLNS.
